Aperçu du XF conference

La table pour conférences représentatives

Le monde du travail a différents besoins auxquels il faut répondre par l'innovation, la capacité de changement et le dynamisme. La plateforme du système XF offre à cet effet une multitude de formes de tables, de tailles et de possibilités.

X est la variable qui s'adapte aux besoins de l'application. F signifie flux - l'état d'harmonie productive dans lequel la motivation et l'attention s'unissent.

Design du produit: Daniel Korb

XF conference

- Différentes formes et tailles possibles
- Possibilité d'équiper avec des raccords multimédias
- Gestion simple des câbles
- Piètement démontable (avantage logistique)
- Piètement léger en aluminium
- Plateau SwissCDF
